## CRAFT BEER

0,5l

### 20.- ZBĄSZYŃSKIE WHITE 3,5%

light, top-fermented wheat beer. A large share of wheat malt and the addition of lactic acid enhance the refreshing character of the beer

### 20.- ZBĄSZYN GOAT 6,5%

multi-salt, bottom-fermented beer. The special recipe provides a rich aromatic bouquet. Higher extract and longer aging at a lower temperature make the beer full-bodied and complex

### 20.- BRIGHT FULL ZBĄSZYŃSKIE 5,2%

under this name there is a light bottom-fermented beer - Jasny Lagier, which, thanks to its balance and higher saturation, is a refreshing and thirst-quenching drink. The beer is unpasteurized and unfiltered.

### 20.- WHEAT 5%

light, top-fermented wheat beer. It is brewed with a very large share of wheat malt, which makes the beer full and refreshing. The yeast creates a banana-clove aromatic bouquet.

### 20.- GERMAN PILSNER 4,7%

classic bottom-fermented beer. The light color was obtained by using only Pilsner malt. Traditional hops introduce a herbal-spicy aroma, with a distinct but delicate bitterness

### 20.- CURRANTS 5%

before bottling, NFC blackcurrant juice is added (the juice is produced by pressing raw fruit). A smaller amount of hops and juice give the beer a delicate hop-currant flavor.

## ADDITIONS

### 3.- RASPBERRY SYRUP 40ml

### 5.- PREMIUM SYRUP 40ml

to choose from the bartender

### 15.- NACHOS TO BEER 100g 40ml

with dip of your choice

## DRAFT BEER

### 7.-/10.- LECH PILS 5,5% 0,3l/0,5l

golden Pilsner-type lager with distinct bitterness and rich foam

## BOTTLE BEER

0,5l

### 18.- PILSNER URQUEL 4,4%

is brewed exclusively from three ingredients coming from the same Czech regions for years: soft Pilsner water, light barley malt and Žatec hops

### 14.- KSIĄŻĘCE ZŁOTE PSZENICZNE 4,9%

naturally cloudy wheat beer that perfectly refreshes and quenches thirst

### 15.- KSIĄŻĘCE IPA 5,4%

intense hop aroma and noticeable notes of citrus and tropical fruit

### 14.- KOZEL LEŻĄK 4,6%

traditional Czech lager characterized by a full flavor, for which a combination of three types of malt with a delicate hop bitterness is responsible

### 14.- KOZEL ČERNÝ 3,8%

traditional Czech beer brewed using a special blend of dark malts that give it a unique ruby color and a slightly sweet taste

### 14.- LECH PREMIUM 5%

light lager beer. It is distinguished by the harmony of taste and proper carbonation, which give it excellent refreshing properties

## ALCOHOL FREE BEER

### 10.- LECH FREE LAGER 0,0% 0,3l

non-alcoholic lager, ideal for amateurs of beer bitterness

### 12.- LECH FREE 0,0% SMAKOWE 0,3l

an excellent proposition for fans of fruit refreshment

### 14.- KSIĄŻĘCE ZŁOTE PSZENICZNE 0,0% 0,5l

a slightly bitter beer with a light and subtle taste. Wheat gives the beer cereal aromas and a rich consistency, and the light, sour taste guarantees refreshment

### 15.- KSIĄŻĘCE IPA 0,0% 0,5l

a contemporary interpretation of the iconic India Pale Ale style with an intense hop flavor and refreshing aroma

## OVII COLLECTION

OVII vodka - a delicate drink with noticeable fruit in the aroma combined with a fruity aftertaste on the finish. Fruit vodka is made from rectified grain spirit, which is distilled entirely in a copper alembic with the addition of fruit or vegetables, which allows to bring out their natural aroma.

Geist is a category of spirit drink specifically defined in the regulation, which must meet standards in the same way as whisky, rum or distilled gin, or spirit. The effect is worth the effort, the alcohol smells beautifully of flowers from the first day after distillation, and after a month it gains the intensity of a perfume-like scent.

## ROYAL STEAK

# from Szwarc

Selected and unique beef, seasoned in ideal conditions, from young French Limousine heifers. Awarded with numerous distinctions nationally (Badge of Honor for contributions to the development of the economy of the Republic of Poland awarded by the Minister of Development and Technology in 2024) and provincially (the title of Greater Poland Farmer of the Year), and most importantly for us, local, because the heifer farm is located in Wolsztyn County in Poświętno. Beef production takes place on a single farm, therefore it undergoes a full quality control path - from natural feed and silage, through stress-free breeding and slaughter, ending with seasoning in a specific microclimate. Choose a trend in harmony with nature and a healthy diet. Choose Royal Steak from Tomasz and Anna Szwarc.
