Geist is a category of spirit drink specifically defined in the regulation, which must meet the same standards as whisky, rum, distilled gin, or spirits. The result, however, is worth the effort; the alcohol smells beautifully of flowers from the first day after distillation, and after a month, its fragrance becomes as intense as perfume.

OVII Vodka - a delicate spirit with a distinct fruit aroma combined with a fruity aftertaste on the finish. This fruit vodka is made from rectified grain spirit, distilled entirely in a copper still with the addition of fruit or vegetables to bring out their natural aroma.
